In depth history and very useful references and photos - also very nostalgic for a person who used to live there. 1 of 1 people found the following review helpful. Nostalgia at it's finest! By SB-9 This book was treasure trove of black and white photos of the "Golden Age of Hollywood". Makes me wish I'd been born earlier! It was sad to see that many of the beautiful buildings have been torn down and replaced with "modern" architecture or worse - parking lots. The only

complaint I have, is not with the content of the book, but with the book itself. The pages are bound so tight, that it was difficult to open the book without tearing the pages away from the binding, which unfortunately happened often. 0 of 0 people found the following review helpful. Five Stars By steven smith excellent service from , could not be happier with there service always

Since World War II, Hollywood has fought and won that same war many times, won the West even more often plus got the girl and laughed like crazy, too. The postwar era in the dream factory was a prosperous time of expansion and wealth through the 1970s, decline in the 1980s, and rebirth in the new century. Vintage photographs from the rare collections of Hollywood Heritage and Bison Archives depict the municipal, business, residential, and entertainment industry growth in Hollywood proper, from 1940 until the beginning of the 21st century. This companion volume to Arcadia Publishing's Early Hollywood completes the pictorial saga of the world's most renowned storytelling capital. These images depict the rise of the television industry, changes along Hollywood Boulevard, and movers and shakers whose visions and influence have made Hollywood the entertainment industry's Mecca.

About the Author Author Marc Wanamaker, a founding member of Hollywood Heritage, owns Bison Archives, one of Southern California's unique photographic collections. He is the author of Arcadia Publishing's two volumes on Beverly Hills.
