Heidi Sand-Hart : Home Keeps Moving before purchasing it in order to gage whether or not it would be worth my time, and all praised Home Keeps Moving:

2 of 2 people found the following review helpful. So perfect for TCK'sBy SalsaA missionary kid who lived on multiple continents shares her emotional process of dealing with the consequences of being a TCK. The nice thing

about this book is that it eventually has a positive take on her overall life. Of course she struggled with the challenges we all are familiar with from Pollack and Van Reken's bible, but it's encouraging to hear some uplifting things, not just a list of identifying what's wrong, that it can be done. She's honest, observant and conveys that one does not have to be "stuck" with the aloneness and grief that not having a home makes you feel. Her inner "work" is paying off-despite the fact that we have some (probably) permanent traits that will affect us for the rest of our lives. Definitely recommend. As helpful to me as "Letters Never Sent" and of course, PV's definitive work.³ of 3 people found the following review helpful. Very engaging

By Kathleen Pilugin This is a wonderful, easy to read account of life as a Third Culture Kid who, due to her missionary parents, travels constantly between the UK and India. It is one of those books, as a TCK, I love to see. It touches on issues a TCK can relate to...confused loyalty, the search for identity, re-entry, friendships. Yet it is not overwhelming or sad. It is upbeat and engaging. Heidi, the author, includes contributions from other TCK's providing an additional layer and perspective. If you are a TCK or interesting in learning about TCK's, this is a book for you.

By Oskar Petur Saevarsson This book captures so many things that other kids might find difficult to understand and appreciate. Heidi (The author) gives you a rare glimpse into a life of a child that grows up in essence without a "home" in the western understanding of the word. I found it hugely giving to read her stories and about her experiences growing up as a traveler of the world. It also helped me gain an understanding of my own travels and also loving more the routine filled "normal" life I had growing up. Her stories also gave me inspiration on not to get bound up by material things in life and think that due to them I'm forced to live in a single country or a single culture. This book is a must read for everyone who have ever felt like they were growing up without a home.

Home Keeps Moving follows Heidi and her missionary family on their many moves through the eyes of a Third Culture Kid (TCK) and the unique phenomena of having four very different home countries to relate to. It tells the true story of being catapulted from continent to continent constantly: leaving friends and starting all over again, her unquenchable search for a home and sense of belonging in this world, her desire for a life-partner with the odds all but against her due to constantly relocating (even into adulthood). You will laugh and cry along with Heidi as she recounts hilarious and heart-breaking tales from her childhood as West blends with East. That is the true beauty of Heidi's upbringing, it crossed borders and defied logic but she lacked for nothing.

Heidi Sand-Hart's Home Keeps Moving authenticates the Third Culture Kid experience. Her personal stories demonstrate the tangible reality of the Third Culture Kid theories we have been reading and hearing about for years.

Tina L Quick, author of The Global Nomad's Guide to University Transition --The Global Nomad's Guide to University Transition Thanks for the book, I enjoyed reading it immensely.
