It discusses in detail what to be considered when planning the honeymoon and it even emphasized why couples need to start their marriage with a honeymoon. The book also opened my eyes to the behaviours expected from me and my spouse. This is really a good book to consider when planning your honeymoon.2 of 2 people found the following review helpful. Offers some very helpful advice when planning a honeymoonBy Jaclyn AnneSam Siv's Honeymoon Planning guide offers tips and advice on everything from what to pack to where to honeymoon. He had some great ideas that I hadn't thought of before, and that would be helpful for any couple planning their honeymoon.I knocked off one star due to a few typos / grammar issues.Overall, I would recommend this book to anyone planning a wedding honeymoon. It offers some great advice and it is well worth the small price tag.I received this eBook in exchange for sharing my honest opinion of the product. Opinion is entirely my own.1 of 1 people found the following review helpful. This is a good book to purchase when your planning your honeymoonBy HollyThis is a good book about planning your honeymoon. This book gives details about the important points we must take into consideration before making our decision. This book also tells about a list of options of dream destinations to choose from. In this book, you will read on, as it explains how to manage your tight budget for a honeymoon trip. I also liked that it had expensive options and ideas as well as ones for those on a budget because not everyone can afford a trip to another country or a tropical place. I was able to purchase this digital Honeymoon Planning guide at a great discounted rate, in return for my honest review. I would definitely recommend this to those who are looking to plan a honeymoon trip.
