From Pop Out : Hong Kong PopOut Map (PopOut Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hong Kong PopOut Map (PopOut Maps):

Disappointed By MnMikeGood for the very center of Hong Kong Island but didn't go far enough to cover our hotel. Caused considerable confusion our first day. Our hotel was a very popular international one and I would have expected the map to cover it. I have used Pop-Up maps in many cities and have been usually pleased with their convenience and coverage, but this one did not live up to previous experience. 0 of 0 people found the following review helpful. If you know where you want to go, this map will show you how to get there. By Jules This map is compact and has a lot of information. On side is the map of Kowloon, the other is Hong Kong. In the folds are maps of the more popular parts of the city with more detail, a guide to the MTR system and a street guide. I found that it is best for the traveler who knows where they want to go and needs a small, concise, detailed map to work with. No frills.
