Most excellent read, I have learned a lot from this book as well as his website. The book was read several times and I highlighted important information as I saw it. Now as for getting over the "stuff junk" that needs to go, well I have started it and although it was a bit of a lump to swallow I went and did it anyway, and I must say it wasn't so hurtful after all, just suck it up butter cup AND YOU'LL DO FINE. If you don't plan on doing the RV/Van thing...this book will help you out anyway!!

Filled with practical, wonderful advice for anyone wanting to embrace this way of life full or part time - or simply for those that wish to travel on occasion in the way. Very useful and great tips!

Interesting observations and description of world view that prizes low attachment to possessions, and large attachment to independence. Non conforming to modern expectations, the historic mountain men/explorers, sound like they were like-minded. Good hints for alternative modes of living

Are you sick of the rat race, working at a job you hate and still just barely surviving? Are you ready to do it for the rest of your life? Or have you been laid-off or "downsized" and can't afford to live anymore. If so this book is for you. In it I give detailed directions how to get rid of your rent or mortgage payment and live in a vehicle. That way you can get out of debt, save money, travel and live free. You can live on so little money you can tell your boss to, "Take this job and shove it!" Sound good? Let's get started!
