Kate Jordan : How to Quit Your Job and Travel the World before purchasing it in order to gauge whether or not it would be worth my time, and all praised How to Quit Your Job and Travel the World:

2 of 2 people found the following review helpful. Amazing and so helpful By Amanda I'm so happy I spent the 5 dollars to buy this book. It was simply worth it. I'm young and trying to find who I am, but I know I want to travel and this book has taught me a lot about my responsibilities while traveling, stuff I probably would never have thought about

and I'm glad I got to read about it from someone who has been through it! 1 of 1 people found the following review helpful. An extremely informative book! By Coleen Thanks to Kate Jordan for this very detailed "how to" book. What is particularly useful about the book is that as Kate shares her own experience and provides options for work, health insurance, etc. she gives reference websites which the reader can use/explore. The only drawback to the book is that it is primarily focused on the European context. However, one should be able to apply some of the information in other contexts. Overall, this was book a worthwhile investment of time as I gained so much new information. 1 of 1 people found the following review helpful. Amazing Book! By Abbie Cheeseman This book is SO inspirational. I've been wanting to travel for quite some time now, and this book made me feel like I could do it. It has advice on jobs abroad as well as saving money while living/traveling abroad. Perfect for someone who needs an extra push to travel the world! The price is AMAZING there's no reason you shouldn't buy this book!!
