By Jefre C. Outlaw  
This eBook is one of my top 4 budget travel guide reference books. I read this book before I set off on a 36 month around the world journey to 101 countries on all 7 continents. I have referred to it several times and in fact just went back to it last night to glean more information and tips on ride sharing for my travels in Scotland and Norway this month. It is clear, concise and to the point information on the mechanics on how to travel inexpensively. But much more than that it helps educate travelers and would be travelers of the shift in thinking about what travel really means and can be. The fact that slow, inexpensive or almost free travel really allows you to be a traveler and not a tourist and really connect with the people and the culture leaving you with experiences that are beyond what any tourist package tour could ever deliver and with way more money left in your wallet. I highly recommend this e-book for any traveler, experienced or just starting out. Enjoy!

Shelley Seale and Keith Hajovsky are self-professed world nomads, who travel just about any time and place they have the opportunity - and usually for free, or very close to it. Between the two of them, they have visited more than 60 countries and logged millions of miles. In this updated 2nd edition of their book, they add even more resources, methods and examples to share their own personal tactics for doing this - showing you ways in which you can travel not just cheaply, but for free - or pretty damn close to it! Are you tired of the conventional wisdom which says that you have to spend a lot of money to travel the world? Do you want to learn how two well-traveled vagabonds have managed to do it for decades, as well as the travel-cheap insights they have accumulated over many years of gallivanting around the globe? There are many travel resources and guidebooks out there that tell you how to travel on the cheap, how to save money, how to get the best airfares. The authors have read and used many of them, and there are lots of good ones around. *How To Travel For Free* (or pretty damn near it!) is different in that in these pages, Seale and Hajovsky share their own personal resources and experiences, and have the examples and detailed how-to that backs it up; along with tried-and-true testimonials from other travelers who have used their methods. If you or someone you know wants to learn how to see and experience the world without the need to have or to spend large amounts of money like so many in the travel industry will have you believe, then buy this book now and start your own personal journey toward your dreams of independent travel freedom!

About the Author  
Shelley Seale is a freelance writer and the author or contributing author to seven books. Keith Hajovsky is a travel consultant and photographer. Separately and together, the two have traveled the world for free or next to nothing, and share in this book exactly how they have done so.
