Hugh Morton : Hugh Morton, North Carolina Photographer before purchasing it in order to gage whether or not it would be worth my time, and all praised Hugh Morton, North Carolina Photographer:

0 of 0 people found the following review helpful. Valued giftBy Edward not-KeachI purchased this book as a pictorial presentation of my state to the Santo Domingo, Ecuador fire department. It was a simple gift representing the state from which they are purchasing their new fire truck. It was received well and appreciated considering this beautiful country has the benefit of ocean to mountain peaks as well.0 of 0 people found the following review helpful. Hug Morton's North CarolinaBy E. BrennanI gave this book to my Brother and Sister in law for Christmas. They are with the State Department therefore they are stationed in countries all over the world. In each country they have lived in they have a book to remember their time there. They originally hail from North Carolina, so when I saw this book I knew it was the perfect gift. I was correct! They love seeing all the places they remember, and sharing those memories with their daughter who has never been "home" to North Carolina. The photos are wonderful. The book is not an

oversized coffee table book, but one you can store in a book shelf or on that coffee table. They can't stop thanking us for the book and the memories that it has brought to them. 0 of 0 people found the following review helpful. Great pictures
By B. M. Weber
This is a wonderful collection of photographs of North Carolina. The section on Scenes has some stunning scenes from the coast to the mountains. The People and Events Section shows North Carolinians and visitors who are notable in fields ranging from politics to the arts. The Sports section shows football, basketball, golf, baseball and even Highland games. North Carolina has them all. AA great addition to your library if you're interested in the Old North State.

Hugh Morton was seldom seen in his adult life without a camera around his neck. Much to the benefit of his beloved home state, he crisscrossed North Carolina, from highlands to lowlands, recording nearly every step along the way. While many of his photographs of the state's people, places, and events were collected in Hugh Morton's North Carolina, this new book showcases a generous collection of his signature wildlife and nature photography and includes a few of the photographer's favorite pictures of people and events that were not included in the first volume. The scenic and nature photographs are organized geographically, from the mountains to the coast. Revealing Morton's curiosity about and love of the natural world, photographs feature woodland creatures, waterfalls, beaches, and more. Some images will be familiar to those who live or travel in North Carolina. Many of the photographs here have been recovered from deep within Morton's personal archive, bringing to print some long-hidden treasures. Consisting of 162 photographs, this collection is a rich and rewarding display of North Carolina's natural bounty as it evolved before the eyes of one of the state's most popular photographers.

"An astonishing array of images. . . . An aesthetic and archival portfolio, "Hugh Morton: North Carolina Photographer" is a look through the eyes of a talented and timeless Tar Heel at some of the best scenes of both nature and man that our state has to offer." -- "Our State" Thanks to these wonderful photographs, Hugh Morton's name will be a familiar one for many generations of people who love North Carolina.--Jancey Common Times Journal
From the Mile High Swinging Bridge on Grandfather Mountain to the magnificent Bonner Bridge at Oregon Inlet, Hugh Morton's. . . book reminds us yet again of his remarkable life and countless contributions to the state of North Carolina--Transylvania Times
Hugh Morton loved birds and animals, especially bear cubs and their mischievousness. You will see squirrel, deer, mountain lion, opossum, and the majestic American eagle. He made each of us a companion in his personal discovery and enjoyment of the great natural endowment of which we are trustees.-- William Friday, from the Foreword
An astonishing array of images. . . . An aesthetic and archival portfolio, Hugh Morton: North Carolina Photographer, is a look through the eyes of a talented and timeless Tar Heel at some of the best scenes of both nature and man that our state has to offer.--Our State
In more than six decades of traversing the state with his battered Nikon F, Morton shot tens of thousands of photographs. . . . [His] photos form a portrait of North Carolina as he wanted the world to see it.--Raleigh News Observer
There was only one Hugh Morton. He was truly one of North Carolina's treasures and nobody has done more to promote North Carolina's natural heritage than he has. . . . If there were ever to be a Mr. North Carolina, it would be Hugh Morton.--Gov. Mike Easley, 2 June 2006
Until his death this year, Morton bedazzled North Carolinians with photographs capturing the state's natural beauty and culture. . . . The new collection features some of Morton's finest outdoor and nature shots, from the beaches in the East to the Western mountains.--News Observer (Raleigh, NC)
Morton's photos made us think about North Carolina's treasures as well as its needs and made us ponder how to fix what's wrong and how to preserve what's good. He did it in that quiet way of his, the same way he took good pictures.--The Charlotte Observer
What the world knows about Wilmington is mostly what Hugh Morton wanted the world to know. What he learned about promoting Wilmington, he used to promote North Carolina. . . . Other Wilmingtonians have done great things for their city. None has done more to make it known. We'll miss Hugh Morton. But the photographs he left behind are reminders not only of special places and special times, but of a special life, well lived.--Wilmington Star-News
Hugh Morton: North Carolina Photographer is a wonderful book full of photographs and would make a great gift. . . for either the native Tar Heel resident, or one whose ancestors called North Carolina home.--Avery Journal Times
This volume will make a nice gift from both natives and newcomers--Pilot
[Hugh Morton: North Carolina Photographer] is one of the few 'must haves' for any Tar Heel.--Chapel Hill News
From the Inside Flap
This new collection of Morton's photographs showcases a generous collection of his signature wildlife and nature photography and includes a few of the photographer's favorite pictures of people and events. The scenic and nature photographs are organized geographically, from the mountains to the coast. Revealing Morton's curiosity about and love of the natural world, photographs feature woodland creatures, waterfalls, beaches, and more. Consisting of 162 photographs, this collection is a rich and rewarding display of North Carolina's natural bounty as it has evolved before the eyes of one of the state's most popular photographers.
