**From Brand: Berlitz Guides : Hungarian Phrase Book Dictionary (Berlitz Phrase Books)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hungarian Phrase Book Dictionary (Berlitz Phrase Books):

However, the type size of the phonetic equivalents of Hungarian phrases was too small for me to read quickly and comfortably. The color contract scheme on some of the pages also made reading difficult. I returned this item. BTW the Lonely Planet Hungarian phrase book also suffers from a very small size print. The Hippocrene and DK Hungarian phrase books are better in

this regard. The Hippocrene is probably the best, but I chose the DK because it is more compact. 0 of 0 people found the following review helpful. Quite Accurate, extremely helpful! By viking I bought this book for my English speaking boyfriend who wanted to learn/pick up a little Hungarian. I loved each section it was broken down in - every possible situation you could think of in day-to-day living. The pronunciation is spot on and although Hungarian is a really difficult language to pick up and understand, I was surprised as to how easy both myself and my boyfriend found this book to be in teaching us. Great buy!!! 0 of 0 people found the following review helpful. All needs met By Allan Glinski I chose this rating because the book was in great condition and it had all the materials needed for my short trip to this part of the world. I would recommend it to anyone traveling in this part of the world.
