Vegahandbokin : Iceland Road Guide + App 2015: ICELANDA.20.E before purchasing it in order to gage whether or not it would be worth my time, and all praised Iceland Road Guide + App 2015: ICELANDA.20.E:

1 of 1 people found the following review helpful. Great book! Definitely worth it if you are driving he ring road. By Casey Lynn This thing will be very useful on my trip this August. Each page is a small snippet of each road in Iceland, including the highland roads. There are a few sentences about each notable point on each section of road. It also includes a roughly 2x3 map of Iceland, which is perfect to draw your route and highlight your stops. It comes with the app and an upgrade key, but I didn't find the app to be quite as useful as the book, in fact, unusable, unless you are

looking for tours or staying around the big cities. The book also includes little snippet advice columns. Like advice on how to drive and what signs to look for. Even what type of sheep and cows you'll run across! Love it! I have a feeling it will be indispensable!

The best road guide for Iceland out there. Linked to the app as well.

This map was a time saver. I am in Iceland as I write this review and we could not have found our way around without the map. Excellent and it does not tear.
