Robert Swan : Icewalk before purchasing it in order to gage whether or not it would be worth my time, and all praised Icewalk:

0 of 0 people found the following review helpful. IN THE FOOTSTEPS OF SCOTTBy P BuckAn extraordinary story told in spare but vivid detail. The 70 day journey was a strange mixture of high exhilaration and grinding exhaustion. Especially memorable is the moment when they had to decide to go on or go back....deserves to be widely read. Hiro Onishi, the Japanese mountaineer who went on to scale Mt Everest successfully fell victim to a debilitating virus. Swan himself, willed himself on despite the excruciating pain of a spinal injury. Three of the men fought against the effects of bronchitis and frostbite. The astonishing journey draws on the entire teams diaries and is illustrated with breathtaking photographs.This candid chronicle of their courage and endurance is one of the most enthralling stories of our time
