It does refer to currency prior to Euro. Other than that, the basics are there and you can still pick up some thing. Not enough German is learned for a lengthy conversation, but that wasn't what I was going for when I bought this. 4 of 4 people found the following review helpful. Good refresher! By Backpacker This language CD is a good refresher for those that know a little of the language. It is certainly not realistic

to absorb this information on the flight. You will need to listen to it for at least a couple weeks before your trip. I would have liked to see them repeat the phrases a couple of times, but it's nice to hear the phrases in the native language. 0 of 0 people found the following review helpful.
