Roger Wardale : In Search of Swallows and Amazons: Arthur Ransome's Lakeland before purchasing it in order to gauge whether or not it would be worth my time, and all praised In Search of Swallows and Amazons: Arthur Ransome's Lakeland:

8 of 8 people found the following review helpful. Swallows sBy D.M. This book is probably more enjoyed by adults than children. I thought this book would be great for my 10yr old son who has read and reread the entire Swallows book series. He did enjoy looking at the real places, but he was not as excited to read about them as he was the series. I think he will appreciate it more when he gets older. Thanks to Roger Wardale for doing this. I know I certainly enjoyed learning more about Arthur Ransome and seeing where all the adventures of the Swallows s were created!6 of 7 people found the following review helpful. Wonderful background to the Swallows and sBy Alan Roberts A well written source to the background to Ransome's Swallows and s stories. A lot of interesting information on the places of the Lake District and the real people that were the models for the characters. Very enjoyable

Roger Wardale's 40-year search uncovers the secret locations featured in Arthur Ransome's original "Swallows Amazons" adventures. Containing fully revised text and rare photographs to satisfy even the most avid reader of "Swallows Amazons", this book aims to give two-fold pleasure - enjoy the original stories, and...discover the farms, rivers, islands, towns and hills that formed their backdrop. It is abundantly illustrated with maps, sketches and more than fifty photographs to help identify the secret locations featured in the ever-popular series of books. Numerous

quotations from Arthur Ransome support both text and photographs.
