By Dixie
First of all I am not disappointed in the content of the book the author did a great job of putting me beside him while traveling though the jungles. I am however very disappointed in the quality of the reproduction. I purchased the book in good faith after reading this assurance by "This work was reproduced from the original artifact, and remains as true to the original work as possible." What a gross misrepresentation of the product. While the text might be "as true as possible" ALL of the photos and illustrations are missing. This means about 1/3 of the book was not "reproduced". I did contact the seller to see if this was one of the infamous reproductions that was missing the photos but all the seller would say was they didn't know as the book was warehoused and unavailable to check. I am really disappointed and disgusted. If is going to sell crappy books they need to at least man up and answer truthfully if asked.

By Gringo on Earth
This is a fabulous adventure story set in 1910 in the Jungle of Brazil. This young, well educated European author was apparently 26 at the time of his trip and must have been 28 when the book was first published. He journeys, in this book, to very small towns on the river shore and then on up the river and its tributaries, meeting indigenous people and others along his route of travel through early rubber country. While I see that other reviewers exclaim their disappointment that his photos are missing, I have to report that the story itself is so compelling through every paragraph of the entire book that photos are entirely unnecessary. It's a short book and I read it over the course of a 24 hour period. Now I've just purchased the Kindle edition of the same author's second book, The Lower which I am just opening today. I see that it is full of photos. For adventurers, do not hesitate. Read In The ...

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.
