National Geographic Maps - Adventure : India Northeast (National Geographic Adventure Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised India Northeast (National Geographic Adventure Map):

1 of 1 people found the following review helpful. Great travel tool. Worth the price. Glad I bought 2. By TexLawGall bought this map to prepare for a Buddhist pilgrimage. It's great! On slick thick "plasticated" paper that doesn't tear easily. Yay! Seems durable. I used the location key a few times - it works. I found it necessary to "Google" a couple place names to find variations when the spelling of a place name on the map didn't match the place name on my itinerary. Apparently not uncommon in India. Part of the charm. Glad I bought 2 maps - one to mark and leave behind with family, the other to take with me to India. Working with this map makes me even more excited about travelling to India. Although I'm a long time member of the National Geographic Society, this is the first time I've bought an NGS map. The map delivers what I would expect from NGS - only the best! 2 of 2 people found the following review helpful. Must have for the Rickshaw Run! By Scot Angus Great maps! Takes a beating (like all NatGeo maps) and keeps on ticking as John Cameron Swayze used to say. Good detail, and reliable distances between locations. Used to navigate from Rajasthan to Kerala in January 2013 in an auto-rickshaw -- an amazing 2 week journey. Only thing that bothered me was that the scale was different on the two maps, which made transitioning from one map to the other a bit more complicated. 0 of 0 people found the following review helpful. Best India map I've used By Leeroy Jenkins The best India map I've used. It's super detailed and also includes Nepal, Sri Lanka and Bhutan.
