It would have been a great pairing with the grandparents state park pass we gave to them for Christmas...but it didn't show up until 3 days after Christmas!! I ordered it with plenty of time to ship (two weeks in advance) when I was reviewing the shipping, it went from Indiana to Ohio to Pensilvania back to Indiana, mind you we are just north of indianapolis, so why did it travel so far I'll never know. If I had known it was located in ft Wayne I would have drove the 2 hours to pick it up so we could have given the perfect gift to our grandparents. I will never deal with a sub contracted out company through !!1 of 1 people found the following review helpful. along with his love of natural and state historyBy Mark SuhoveckyI have found this book to be invaluable when visiting a number of the Indiana Parks for the first time. Mr. Goll has obviously hiked the trails and stayed at the campgrounds, and this experience, along with his love of natural and state history, shines through all of the accounts.
