OF IRAN ..

The Islamic Republic of Iran is at the center of world attention politically, socially, and culturally but it remains largely a cipher to the West. Award-winning photographer Mark Edward Harris has traveled throughout Iran to produce the first contemporary photographic book on a place seldom seen or understood. His images of daily life offer a fascinating look at a society of juxtapositions ancient and modern, commercial and spiritual, serene and intense, political and personal. With chapter introductions and extended captions providing context for the images, *Inside Iran* is a crucial look at a country whose future is likely to influence our own.

About the Author Mark Edward Harris has traveled and photographed in more than 70 countries and is the author of several books, most recently *Inside North Korea*. He lives in Los Angeles.
