Love these books!By MontanaSueWe do a lot of traveling and love these Insight Guides for the beautiful photos and inspirational text they contain.They're not used for advice on where to lodge or eat; their purpose is to inspire and they do a wonderful job of it.We have an Insight Guide for almost every country we visit--that and our Lonely Planet guide gets us where we want to go.0 of 0 people found the following review helpful. Out of dateBy tabletfanThe pictures are alright, but the book on the whole is out of date and of limited usefulness. There is better information about Chile available for free on the internet.0 of 14 people found the following review helpful. Travel book reviewBy PGTThe shipper was great for this book. However, this is not the best travel

book I've had.
