I believe it was a little older than others out there, but through research I found it had the best information. I took it to Argentina with me. This was my #2 book for Argentina. I did find a better one, but this was one a great source as well. 0 of 0 people found the following review helpful. The two together are a great combo. By La Boheme Prefer the practicalities of the Fodor's book but this one is lovely. The two together are a great combo.
