Running time: 21600 seconds Binding: Audio CD | File size: 28.Mb

Michael Gruneberg : Instant Recall Russian, 6-Hour MP3 Audio Program before purchasing it in order to gauge whether or not it would be worth my time, and all praised Instant Recall Russian, 6-Hour MP3 Audio Program:

0 of 0 people found the following review helpful. Works best for short sessions at a time. By Shingo It gets sort of boring after a while, but you just have to do it in short concentrated sessions. Some of the mnemonics doesn't make sense to me. However, I've retained what I've done so far. All of the animals and clothings, I can say them with what sounds to me like the correct accent. So far so good. 0 of 0 people found the following review helpful. Not For Me By Mr. Dan This is one of the few Russian resources that I got that I did not like. I personally do not like to slam products but this was the worst one I have encountered. The use of mnemonics as described does not work at all for me. I am giving it two stars as it may work for someone else but you listening to two minutes of jibber-jabber for each word is

not a wise use of my time. And there are not even any sentences. Pimsleur and Michel Thomas were much, much more useful audio courses to me. 1 of 1 people found the following review helpful. Nothing fancy but it works to learn vocabulary. By R Dail I have just started using the CD - I am learning the names of animals - but I can already tell the system works and it is a lot of fun if you start slow and do 15 minute sessions with a 10 minute break to do something to exercise another part of your brain like origami - I made a Sonobe box and learned 10 new words in 25 minutes. Not bad for the price

Learn and remember Russian words A simple new way to increase your foreign-language vocabulary . . . -Nada El Sawy, Newsweek Developed by memory expert Dr. Michael M. Gruneberg, Instant Recall Russian offers a proven method to help you build vocabulary and learn basic grammar instantly. All you need to do is listen, picture mental images, and then respond to the tests. For example: The Russian for juice is sok. Imagine drinking juice from a sock; then keep this picture in your mind for about 10 seconds, until the next word is presented. After a set of 8 to 10 words, you are tested on what you have learned. Within 10 to 12 hours, you will have a solid foundation of vocabulary and grammar to communicate confidently.

About the Author Michael Gruneberg, Ph.D., is an internationally respected authority and author on memory enhancement. He is the past president of the International Learned Society for Applied Research in Memory and Cognition.
