Very well written little book that presents not only phrases, but also interesting cultural explanations that make language use easier. The Thai phonetic system is presented in an unexpectedly simple and clear way and it has resolved many of my previous doubts. Thai phrases are arranged according to key words, which helps in the use of this book. I strongly recommend buying "Instant Thai".

I didn't like the way this was organized at all. I had the hardest time trying to find out where to find the words for "Thank you" so I gave up. Maybe this could be since it was the kindle edition which made it harder to flip through. In that case, I wouldn't recommend it as an e-book, since it was very difficult to navigate and find what you wanted in an efficient or expedient manner. The content could be good- I have to admit I didn't scour the whole thing- but I found it to be ineffective for my purposes on vacation when I really wanted a quick reference guide.

Excellent guide to introductory Thai, with helpful explanations of usage, grammar, etc.

It's amazing how 100 key words and phrases provide instant communication!
Do you want to speak simple Thai but are too busy to study it? Are you visiting Thailand for a short time and want a Thai phrase book to help you communicate? If so, this Thai phrasebook is for you!
It's the easiest and quickest way to learn Thai. It's tiny 0.4 x 4.1 x 5.9 inches size makes it incredibly convenient to travel with but without losing the most essential content for communication. The idea of Instant Thai is simple: learn 100 words and phrases and say 1,000 things. The trick is knowing which 100 words to learn, but the authors Stuart Robson and Prateep Changchit have solved the problem, choosing only those words you'll hear again and again. Even with a vocabulary this small, you'll be surprised how quickly and fluently you too can communicate in the Thai language. It also has an English-Thai dictionary, arranged alphabetically. At the end of the book are useful appendices for telling the time, kinship terms, some Thai proverbs, and emergency expressions. Here's a sample of what you'll be able to do with this Thai phrasebook: Meet people. Go shopping. Ask directions. Ride the subway. Order food and drinks. And much more.
About this new edition: Instant Thai is now updated with 10% more content and fun manga-style illustrations and comics!

"This is a great book for beginners of the Thai language. You'll learn lots of valuable phrases in a way that can help you put them together in many different ways to get your thoughts across in a way that Thai people can understand. When learning Thai, the VERY first thing you should do is learn how to read. This is absolutely essential. Once you can read the Thai script, you'll always know how to say the words properly. You should then download Anki so you can throw all the phrases in there and use the flashcards to help you memorize what's in this book."

"The Instant series from Tuttle, however, is not your usual phrasebook. Rather than focusing on phrases to help you order food, go to the hospital, rent a hotel room, or buy a train ticket, it provides you with more than 100 key words and phrases to help you express more than 1,000 unique ideas based on general conversation topics."
