Rand McNally and Company : Intermediate Geography Map Activities (Rand McNally Schoolhouse) before purchasing it in order to gage whether or not it would be worth my time, and all praised Intermediate Geography Map Activities (Rand McNally Schoolhouse):

16 of 16 people found the following review helpful. wish they made an advanced version!By S'KayThis is a great little activity book. The left side pages explain a concept, such as how to read a map key or longitude and latitude, and the right side page then has a few practical questions based on an actual map. The activities are colorful. The pages break each concept down into pieces so it's easily understood, and the child progresses through the book like up stairs a step at a time, not realizing how much progress they've made so quickly. My son can race through these pages. He loves geography presented this way. Bring on the Advance Geography Activities!25 of 25 people found the following review helpful. Best geography workbookBy AnaBHThe only negative thing is that they don't have more volumes published! We are a very geography-oriented homeschool family and I have spent hours online looking for good geography workbooks for kids-- this is tops. High quality paper, colors, exercises encompassing maps, countries' data, "did you know" facts... my 6th grader is wishing they publish the advanced level soon!2 of 2 people found the following review helpful. Intermediate Geography Map ActivitiesBy Debbie M. HowdeshellI love this book and it works will with my 7th grade Geography class. I would recommend this book to any teacher to help students with

their map skills.

Action and adventure accompany geographers on their journey around the world with this fantastic activity book. Schoolhouse's Intermediate Geography Map Activities workbook uses a fun format with action heroes to help kids expand their knowledge of world geography through informative reading passages, map activities, and interesting geography. Features include: Fun, education-oriented activities for students ages 9-14 Colorful map illustrations, games, and geography facts World, continent, and country exercises Companion to the Intermediate World Atlas or great on its own Paperback 128 pages
