ITMB Publishing LTD : Iran and Teheran 2015: ITM.1330 before purchasing it in order to gage whether or not it would be worth my time, and all praised Iran and Teheran 2015: ITM.1330:

4 of 4 people found the following review helpful. Map of Tehran is excellentBy Pamela NaessigI love maps and I purchased a beautiful contemporary map of Iran towards the end of my trip May 2015. I did not find this map until after I returned, and wish I would have had it for planning and during my time in country. The map of Tehran on the opposite side is excellent.

Politically, Iran has been in the dog house for many years, but touristically, it is mellowing and even Americans can visit. The current political situation in this part of the world(I'm referring to ISIS/ISIL) creating a rapid re-evaluation of Iran. For this reason alone, it is time for a new map of the country. We have decided to combine our Tehran map with our Iran map, saving customers the necessity of needing two maps for visiting the country. The information for side A, on Tehran itself, is exceptionally good, but we caution that changes are likely to occur over the next year due to probable realignments resulting from ISIS activity in the region.Side B, the map of the country itself, is very detailed and quite suitable for anyone travelling around the country. IT also shows the strategic importance of Iran very clearly. Having visited Iran, I can testify to the warmth and hospitality of the Iranian people and to the touristic pleasure one obtains visiting ruins, historic cities,religious centers, and desert-like terrain. Tehran remains available as a separate title as well.
