**Bahman Parsa : Iran: The Land of Civilization** before purchasing it in order to gage whether or not it would be worth my time, and all praised Iran: The Land of Civilization:

This collection of photographs from all corners of Iran demonstrates the author's love for his country and its cultural heritage. The panoramic views of the country's natural beauty, combined with insightful looks at the people and history make this volume an excellent introduction to the land and people. Limited edition.
