I am still looking for a map less than 1.0M. 1.2M is too small a scale for travel in-country, but probably has too large for a general geography lesson.2 of 2 people found the following review helpful. Useful MapBy Vanessa LeeThis is very good combination of Iraq and Baghdad map. One side is Baghdad and other side is Iraq. I use this map for my trip and it is very useful. all the information is very current. I love this map.

Double sided map features a road and travel map of Iraq, scale 1:1,200,000 on one side and a street plan of Baghdad 1:25,000 (including the International Zone, formerly Green Zone). The country map distinguishes roads ranging from highways to other categories. Main legend includes railways, airports, points of interest, water wells and oil wells. The city plan shows old city area, parks, walls, town gates, palaces, mosques, Khans, churches, monuments, museums, hospitals, hotels, restaurants, night clubs, bus stations, taxi stands, parking, petrol stations. Extensive place name index for each side. The map was updated in 2011 and reflects the realities of Iraq after the Iraqi Freedom operation.
