Is essentially little more than someone's opinion of "coolest" things to do in Ireland (or is it Australia?) with a SHORT paragraph about each. No references, no citations, no websites, NO MAP to provide geographical context, no dates on material...you get the idea. I've never written a review before, but am so incensed about this product felt compelled to warn others. **DON'T WASTE YOUR MONEY!!** Spend a little more and get a REAL travel guide from Fromm's or Rick Steve's - at least you know it'll be current and well researched. This one is WORTHLESS!2 of 2 people found the following review helpful. Do not Buy - Waste of MoneyBy Nina P.Please do not buy. Complete waste of money. It is basically 10 pages and looks like a pamphlet made in Word by my daughter. It is so unprofessional (there is even a typo in the introduction referring to Australia instead of Ireland). I would have returned it but my daughter marked one page. This is the worst travel book ever written. I can't believe that agreed to sell it.2 of 2 people found the following review helpful. Save your moneyBy Christina KulperThis book has things to do, but it has few details and no pictures. If you want a list, then this is a good book for you. You will just have to have your computer next to you to google the items from the book. At that point though it might just be easier to be googling things to do rather than paying for this book.
