**Dan Perry, Alfred Ironside : Israel at Fifty** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Israel at Fifty:

6 of 6 people found the following review helpful. An excellent book - a new view of an old subject By A Customer  
Impressive pictures combined with provocative text, the authors have managed to combine middle eastern views with american views to put together a complex view of the many triumphs, dilemmas and challenges that are part of modern israeli life today. A good book for light skimming (coffee tables) or more in-depth review. In my household, it stimulated a number of thought provoking conversations (amongst those who read it)..1 of 1 people found the following review helpful. 50th + Anniversary! By STEVAN CLAWSON  
This wonderful book in review of the past 50 years of the fight struggle of Israel gave me quite a contemplation when I recognized events from 1967 onward! I was drawn back to my childhood days remembering so many of those events that I lived through with bitter-sweet memories. I cherish this book and the memories I have! Stevan Aharon-Clawson

A fine copy with no wear or markings in a fine looking jacket - but, it has a fingernail punchthrough very light at front cover panel/book gutter in the dust jacket only.

From BooklistPublished in conjunction with Prime Minister Benjamin Netanyahu's 50th Anniversary Committee, Israel at 50 is a photographic history--with supplemental text--of that young nation. There are 200 exceptional photos, some black-and-white and some in color. Captured on film are cities (including Haifa, Tel Aviv, and Jerusalem), places (the Sea of Galilee, the Negev desert, Rachel's Tomb, the Western Wall, refugee camps, and orange groves, among others), people (Theodor Herzl, Golda Meir, Menachem Begin, Yitzhak Shamir, and Shimon Peres), and events (Arab riots, Jewish demonstrations, war). The book also contains quotes relative to the photographs and text--quotes from an early Zionist advocate, from the Balfour Declaration, and from Begin, David Ben-Gurion, Yitzhak Rabin, and Benjamin Netanyahu. Several Jewish publications will be featuring the book, which is a Doubleday Book Club selection. George Cohen The intriguing photos are candid and gritty, showing different aspects of a complex country. -- The San Francisco Chronicle, Kim Zetter
