Cartographia : Israel (Country Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Israel (Country Map):

0 of 0 people found the following review helpful. Five Stars By Customer Very useful for our trip. 0 of 0 people found the following review helpful. Excellent By James A Farrar You need one if going there. It is the center to the world to a Jew and Christian. Worth the buy. 8 of 8 people found the following review helpful. Not worth it By YKB Bought this map and used it for a weeklong trip to Israel. The negatives: - The paper quality is poor. - The street detail is pretty low for practical street navigation. - Even though the map does have city maps (Tel Aviv, Jerusalem, Eilat but no Haifa) they only cover the city centers. - The back of the map is wasted with a huge street index - this could have been used in a better fashion. - I found the free map that I got from Budget a more useful tool for overall navigation, since it contained all the info I need for highway driving in a more compact package. The positives: - It is not expensive. - Is ok if you are only going to drive on major intercity roads.

Includes inset of Haifa, Tel Aviv, Jerusalem. Legend in 2 languages, including English. Index on back of map.
