I found myself immersed in Luke's journey around the world and often regretted work the next day when I discovered I had read hours past my bedtime. Few books leave you wanting more but upon completion, I was left wanting to read another page, another chapter when there were no more pages to be had. Thank you Luke for sharing your epic journey.0 of 0 people found the following review helpful. Very Entertaining ReadBy CustomerI've been

looking for a story like this for so long to read about traveling. I thoroughly enjoyed the read, in two sittings. My only gripes were the abrupt end to some parts of the stories shared. It felt to me like it didn't close out the story properly or even open-ended. To help ease a reader into the next story. But don't let that deter you from reading this awesome awesome story. 0 of 0 people found the following review helpful. Looking forward to more books from this author By Charles Dahlkoetter This is a well paced, interesting story that also sneaks in a great many lessons for globe trotters on a budget.

In *My Backpack and I*, Luke Harris, a young American schoolteacher, leaves the United States for the first time to travel around the world. During his adventure, he slept on the floors of strangers, took an eighty mile hike with no preparation, joined the mile-long club, got urinated on, and was scammed out of his money. Harris tells a story that will make you want to drop everything and travel...or not.
