A charity collector expects sore feet and a lot of boredom on his daily rounds. But when Rabbi Yaakov Sapir set out from Jerusalem in 1859, he knew he would need all his wits to survive his collecting trip. He returned after several years of terrifying adventure, and his perceptively wry account of his journey is one of the most exciting travel stories ever written. Of course, Rabbi Sapir's "rounds" were not the usual ones. They included India, the newly discovered continent of Australia, and Yemen, the semi-barbaric wilderness country. Traveling through Yemen meant starvation, plague, bandits, and rapacious rulers, which explains why few people ever went there. Rabbi Sapir, the indomitable "emissary of the Rabbis," plowed through it all, emerging gaunt and haggard but is determined as ever to carry out his mission. Perceptive, honest, feisty, and filled with wry humor, Rabbi Sapir's story has to be read to be believed. --- from book's back cover
