My boys (4 and 6) really enjoy using this map to find places they read about in stories, or watch on TV. Works great with dry erase markers. Took off a star because, as other reviews mention, it's lacking most bodies of water, even major ones. 0 of 0 people found the following review helpful. Clear and colorful. By Edith A. I like this map. Got it for my 10-year old grandson. Would have given it five stars, but it doesn't identify any of the bodies of water other than the Atlantic and Pacific oceans. Not even the Mediterranean Sea. I plan to sit with my grandson with a permanent marker and an atlas and mark as many bodies of water that will fit. Good quality laminated poster paper. 0 of 0 people found the following review helpful. Great for children's room! By MomOfBubs Great poster, fabulous product, durable and vibrant colors. Thank you for the item and quick response time. This is helping my explorers learn the world quickly.

Michelin's beautifully colored and engaging laminated world wall map is designed to capture children's interest and lead them to interact with the map and its reusable flag stickers. In the process children discover world geography and learn to identify countries in an enjoyable yet informative way. A child chooses a flag from the sticker sheet, locates the associated country with the help of the map's flag border, and places the flag on the proper country on the map. The laminated wall map serves as a constant visual reference, illustrating the different countries of the world.
