I thought this Nascar book would make a good gift for a friend of mineBy LINDA SCHUETTEI thought this Nascar book would make a good gift for a friend of mine, since he follows Nascar on TV...I was right, he liked it very much, and commented on some of the pictures that brought back memories to him. The book was shipped in a box, so it was received in good condition and was received in time to give as a Christmas gift. I was a very satisfied customer!0 of 0 people found the following review helpful. He was so happy with bothBy K. KeithGot this in combination with "The Ghosts of Nascar" for my dad for Christmas. He was so happy with both. This book is perfect for free time reading-especially for my dad who is recently retired. I know it's not something he would buy for himself, but he really LOVED it....it's a great quality book.0 of 0 people found the following review helpful. Great Gift for NASCAR fansBy K. RaymanBought as a gift for a NASCAR fan. He must of loved it because he came over and thanked me personally and gave me a Christmas card with money inside.The card and money was a surprise but just the personal thank you tells me that it was a wise choice for gifting a NASCAR fan.

In this unique gallery book, historical shots of people, cars, events, tracks, shops, and other NASCAR landmarks are paired with comparable modern shots to present a fascinating review of America's top motorsport. See what Darlington looked like when it was built in 1950 compared to what it looks like now. Get a real sense of how pit stops have changed between 1949 and today. Compare a Ford stock car from 1962 with one from 2009. Nowhere else can NASCAR fans so graphically trace the evolution of their favorite motorsport.
