**Patricia S. Daniels, Steve Hyslop : National Geographic Almanac of World History** before purchasing it in order to gauge whether or not it would be worth my time, and all praised National Geographic Almanac of World History:

0 of 0 people found the following review helpful. Five Stars By JOSEPH E WOODS Very good book. Especially for the price. 0 of 0 people found the following review helpful. but price was good, and my son likes history By Lori Wagner Not what I thought it would be, but price was good, and my son likes history. Was strange to see it once belonged to a library. 0 of 0 people found the following review helpful. Tutor review By NanI am a tutor, and found this text most useful for students of global history. I highly recommend it for professionals and those interested in the pictorial and written material included.

From the first civilizations to the 21st century, this wide-ranging, compulsively readable book encompasses all of world history great ages and monumental events; the rise and fall of cultures; names, dates, and statistics; and stories galore. Designed as an authoritative reference that's also irresistible to browse, it's a brilliant blend of narrative,

analysis, detailed facts, and visual variety including sidebars, time lines and more than 200 maps and illustrations. The book offers four revealing ways to look at the human epic. In *Milestones*, 12 essays address key developments from agriculture and writing to modern democracy and other important themes; next, *Major Eras* takes a chronological approach, examining 11 eras from prehistory to the present. *World at a Glance* traces specific subjects through the centuries, with entries on Wars, Religions, Human Accomplishments, Leaders, Artists, and more. An expansive appendix listing presidents, popes, and other world figures, as well as a bibliography, a glossary, and a comprehensive index round out this amazing reference. A book that meets the most demanding standards of accuracy and graphic excellence, this is an indispensable tool for students and an illuminating, engrossing exploration for anyone interested in the who, what, why, when, and where of world history.

About the Author Patricia Daniels is an author and editor for National Geographic who has written, edited, or contributed to books on history, science, and geography, most recently the National Geographic Encyclopedia of Space. She lives in State College, Pennsylvania. Stephen G. Hyslop has been a writer and editor for Time-Life Books and National Geographic, as well as author of *Bound for Santa Fe* and *Chroniclers of Indian Life*. He lives in Virginia. Douglas G. Brinkley is the director of the Theodore Roosevelt Center for American Civilization and Professor of History at Tulane University. He authored two New York Times Best Sellers: *Tour of Duty: John Kerry and the Vietnam War* and *Voices of Valor: D-Day; June 6, 1944*. He is the official historian for NBC News. Dr. Brinkley is contributing editor for the Los Angeles Times Book and American Heritage and a contributor to the New York Times and The New Yorker.
