Known for pristine beaches as well as cosmopolitan centers, Australia has become one of the world's most desirable travel destinations. National Geographic Australia 2017 offers a collection of stunning photographs, including Australia's great natural outback and notable landmarks. Sites featured in this year's calendar are: Uluru (Ayers Rock); Cape Otway, Victoria; Kimberly Region, Western Australia; Vineyards, Adelaide, South Australia; Whitsunday Islands, Queensland; Great Ocean Road, Victoria; Kakadu National Park, Northern Territory; Atherton Tableland, Queensland; Blue Mountains, New South Wales; Great Barrier Reef, Queensland; Purnululu National Park; Opera House, Sydney. Each image is accompanied by compelling National Geographic information and a large grid with moon phases and international holidays. Proceeds from the sale of this calendar support vital exploration, conservation, research and education programs. The calendar includes a 3-year at-a-glance page and is earth friendly, printed with soya-based inks on FSC certified paper.
