following review helpful. Excellent Book By Southern woman It gives me a great look into Argentina and helps me see what I need to consider in visiting. Looking forward to my visit.

The all-new National Geographic Traveler: Argentina begins in the exciting and affordable capital of Buenos Aires and travels to every province, from the Inca-influenced realm of the northwest to the ice-chilled tip of Patagonia and Tierra del Fuego in the south. Drives include the amazing landscapes of the Cafayete-Cachi Loop in Salta Province and the spectacular Sierras del Cordoba. The book is peppered with ideas for getting behind the scenes, including studying Spanish, celebrating the tango, and wine-tasting in some of the world's most beautiful wineries.
