I'm so happy I found it. I'm disappointed it is out of print. My husband and son are Ecuadorian and this is a great book to help teach my son about the beauty and diversity of Ecuador. 0 of 0 people found the following review helpful. Beautifully written By Sherry Intriago Being that my family is from Ecuador I had to buy this book so my daughter will learn more about her heritage. This book is fantastic and very informative as well. At the end of the book it has detailed information of the animals that live on the island and how the Galapagos islands were discovered. My 17-month-old daughter loves this book and every morning she wants me to read it to her... I can't wait to be able to show her these animals live and in person.

Tour the Galapagos Islands in a red-sailed boat and encounter many exotic land and sea animals, like giant tortoises, albatrosses, iguanas, lava crabs and booby birds! This rhyming story, which also teaches the days of the week, also includes fascinating facts on Charles Darwin, the Islands and the animals that live there.
