Jacqueline A. Smartt MS.Ed : Navigators Travel to Guyana: Based on an idea by Howard Liverpool (Volume 2) by Jacqueline A. Smartt MS.Ed (2015-11-02) before purchasing it in order to gage whether or not it would be worth my time, and all praised Navigators Travel to Guyana: Based on an idea by Howard Liverpool (Volume 2) by Jacqueline A. Smartt MS.Ed (2015-11-02):

1 of 1 people found the following review helpful. Educative and Fun!By BreNavigators Travel to Guyana is a lovely creative story for young children to learn and understand the cultures and customs of Guyana. For those who grew up in Guyana it brings back fond memories and I am sure for kids with or without Guyanese parentage would find the images an portrayed in words and pictures to be exciting and stimulate curiosity to find out more.I hope this continues to be a series where our children can learn geography in a fun and creative way.1 of 1 people found the following review helpful. An excellent, well writtenBy Mignon MurrayAn excellent, well written, informative book for children which every child of Guyanese parentage should read. This book will shed light about Guyana for non Guyanese as well. It tells about the foods, places of interest, and history in a way everyone would understand and enjoy. For me, I was nostalgic for home especially the foods and fruits. I highly recommend this book. Kudos to the author, a job well done.1 of 1 people found the following review helpful. Wonderfully well written and informativeBy CustomerWonderfully well written and informative. Beautiful memories of a home I love and rich history for those who have not had the privilege of living in Guyana. Buy this book for all the cherished ones in your life, I highly

recommend it!
