Random act of kindness and a road map...By Serena W.The Nevada Road Map by Benchmark Maps is the ultimate transportable planning tool and GPS buddy for express statewide travel. It's the only Nevada road map that gains from Benchmark's all-encompassing field-checking, verified accuracy and cartographic excellence. Striking shaded-relief road map of Nevada is on one side as well as a mileage chart and place name index. The reverse side shows the urban areas of Las Vegas, Reno and Carson City, and Tahoe.I bought it as a road guide for a trip I took for my granddaughters graduation present, and it was an invaluable tool for us. It was great to have a good reliable map as our copilot as we made our way into California, around Carson City and the area; Reno and Sparks. Its easy to read, easy to fold and easy to tuck into a bag.Left it in the glove box of the rental car as a random act of kindness and hope the next person on the road uses it and can pack some good memories into it along the way.0 of 0 people found the following review helpful. exploring the neighborhoodBy SteveI'm going exploring where online maps don't work.0 of 0 people found the following review helpful.
