Wonderful Pictorial History book of New Orleans By mbkent This is a Wonderful gift for anyone familiar with New Orleans or interested in its history versus today ! I gave this book to a close friend who was born in New Orleans and he told me how much he has enjoyed viewing and reading sections of it with both of his elderly parents who are fond of their early years spent in "The Big Easy." 0 of 0 people found the following review helpful. The "Then and Now" books are a great series to read !!! By Glenda Campbell I have several of these "Then and Now" books of different cities. I have never been disappointed and have enjoyed them all! I have bought a couple of books at sales or auctions, and while the city may not be my first choice of interest, they are still very good books. I still read them and look at the photos even though I have 1) Either never been there or 2) Never really had an interest in the city. I have never been disappointed in this series of books and would highly recommend them to anyone who enjoys reading/looking at a book concerning the historical aspect of areas and buildings and what they looked like back then versus what it looks like now. 0 of 0 people found the following review helpful. Four Stars By Glendagift

Celebrating this beloved city, New Orleans Then and Now offers a unique combination of historic interest and contemporary beauty. This book features dozens of fascinating archival photographs contrasted with specially commissioned, full-color images of the same scene today. Each work is a visual lesson in the historic changes of one of our greatest urban landscapes.

About the Author Sharon Keating was born and raised in New Orleans and lives and works in the city. She earned a degree in history from the University of New Orleans, and a law degree from Loyola University. After completing courses at Delgado College, Sharon became a licensed tour guide and has conducted many tours for out-of-town convention groups. She is the About.com guide to New Orleans, the author of *New Orleans in Photographs* (2005) and a compulsive blogger.
