**Gerard R. Wolfe : New York: 15 Walking Tours, An Architectural Guide to the Metropolis** before purchasing it in order to gage whether or not it would be worth my time, and all praised New York: 15 Walking Tours, An Architectural Guide to the Metropolis:

guide were terrific. You can skip the history and detailed architectural information if you want, but it does add to the walks. The guide pointed me to places and detail I never would have seen on my own. My favorite walk was the upper west side, although it took the longest. The statue of Joan of Arc and the Pomander Walk were outstanding. I stopped into many a lobby, some of which I could walk through and some not. I did get lost a bit, but found it was my fault and not the guides. I do recommend tearing out each walk, stapling the pages and using that to walk with as the book is fairly heavy. HIGHEST RECOMMENDATION! 0 of 0 people found the following review helpful. Went on Walking Tours with Gerard Wolfe when I lived in NYC. Still Remember Them. By Maxine36 Used to go on walking tours with the author 40 years ago in NYC. Still remember them. 1 of 1 people found the following review helpful. very helpful, serious work By new convert to the computer I used .com to search for a book to give as a gift to my sister, a native New Yorker still living in the city who brings family on tours when they visit. I was able to locate a number of works on the history of New York, check them out concerning table of contents and sample pages, and read reviews. This book seemed the best for my purposes, and yes, it was; my sister says it is a very good research tool, enabling her to check a date, check a site. We are both pleased.

The devastating events of 9/11 have brought a renewed interest in the rich architectural history of New York City. Excerpts from: *So Many Street Corners, So Many Stories* By CHRIS HEDGES JUSTIN FERATE speaks of New York City with touching propriety. Give him a street and he begins to spin it out before your eyes, not only the architecture but also what we really want to know: the gossip, the stories, the lives of men and women who scandalized us or captured our imagination. ... Mr. Ferate, in a bow tie and light green houndstooth-check coat, is animated as he tells one of his favorites about the architect Stanford White. He begins by talking about the old Madison Square Garden, which White designed, and he quotes O. Henry as calling Madison Square "the flywheel of the universe." He continues by telling about Harry K. Thaw, who killed White on the roof of the old garden in a triangle that included the Gibson Girl Evelyn Nesbit. ... He landed in New York City 25 years ago. ... While wandering around Union Square one day, however, he walked into a bookstore and found "*New York: A Guide to the Metropolis*," by Gerard Wolfe. Mr. Ferate said he devoured the book and called Mr. Wolfe to tell him how much he loved it. Mr. Wolfe invited him to come with him on a tour; Mr. Ferate never looked back. ... "The city is magical. It never runs out of stories." Excerpts from: . . . *So Many Street Corners, So Many Stories*. By CHRIS HEDGES. . . JUSTIN FERATE speaks of New York City with touching propriety.
