Photo, Coffee Table BookBy rlopezAfter returning from a trip to New York City I was searching for a book which would show photos of the city.Something to have on hand to show family and friends.This book did the job... It's 96 pages with a small description and excellence photos of landmarks around the city. For instance, the Empire State Building, Statue of Liberty, etc.. Just want I was looking for...They are a few photos which have outdated vehicles in the photos but it does not take anything away from the value of the book .Shipping was quick and on time.. For the price I found this to be more then worth it. I would purchase again.0 of 0 people found the following review helpful. Beautiful book.By J.
