Best if put into a frameBy Joe GabouryIt is working perfectly in a frame but the ends were damaged in delivery or packaging. Best if put into a frame.3 of 3 people found the following review helpful. Excellent Map of NZBy DanOExcellent map, great size! My wife and I went to New Zealand for our honeymoon in 2016. I wanted to give a nice corny Christmas gift where I traced our journey across the country. This map was perfect for that.

The reference map of New Zealand uses National Geographic's signature Classic style with blue oceans and stunning shaded relief. The map shows this island nation in great detail, from the subtropical North Island (Te Ika-a-Maui) to

the glacial carved valleys of Fiordland on the South Island (Te Waipounamu). The North Island is best known for large volcanic lakes and the cities of Auckland and Wellington. The South Island is famous for the Southern Alps that run along the spine of the island. The highest point in the country is Aoraki (Mount Cook) and is found in the Southern Alps. The first settlers of New Zealand were the Maori from Polynesia, the names on the map reflect this history with both English and Maori variants. The map also features a transportation network including highways, roads, passenger railroads, and major airports. All National Parks are also shown. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:2,300,000 Sheet Size = 23.5" x 30.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
