Shame on me; I fell for a scam. I was surprised that this book had no "Look Inside" button but given all the rave reviews and the low price I just clicked the Buy button and moved on. Upon receiving it, I find it's nothing more than a tiny pamphlet with a pretty cover. The contents consist of 101 numbered paragraphs with the kind of descriptions that you would find on the back of any decent tourist map. There is no apparent order to these paragraphs, no photos, no maps, or any other content. The book doesn't even have page numbers. So what about all those rave reviews? There is no way I can know for certain, but all the evidence points to paid shills. Here are the clues: (1) A useless book with all 5-star reviews and not a single negative comment is suspicious to begin with. Of course, there are *just* enough 4-star reviews to give just a hint of credibility. (2) All of the reviews appear to be written by people who are not native speakers of English. Read a few and you'll see what I mean: missing articles, adjective-noun pairs that no English speaker would combine, and other clues abound. (3) None of the reviews has any real content. All of them could have been written without reading much more than the title. Yes, they all ordered the book so they are all Verified Purchases, but there is no suggestion in the reviews that the books were ever opened. (4) Every one of the reviewers has the profile of a shill. Each of them has given only 5-star reviews to the books they reviewed, with just enough 4-star reviews to make them appear to be actual reviewers. All of their reviews follow the same pattern: universal praise in vague generalities that give no hint of comprehension or evaluation of the content. There are more clues, but that should be enough to convince you to avoid this book. If you *do* buy it, *please* leave an honest review, whether you like it or not, to help all of us combat the scamming that is now taking place on .1 of 1 people found the following review helpful. Not very good

Was okay for reading through a list of things to see/do so that you can do more research into what you are interested in but that's about it. I'm purchasing another travel guide to actually plan out our holiday because this was useless for that.
