National Geographic Maps - Reference : NGS 125th Anniversary World Map [Laminated] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised NGS 125th Anniversary World Map [Laminated] (National Geographic Reference Map):

2 of 2 people found the following review helpful. World map By Tonya WI put this map on our farm table. It is a great conversation starter for family and friends. We search dream of where they will go next. I had a similar map but gave it to a visiting friend from Africa to use in their school there. I found I missed having it!

This special edition map commemorates the National Geographic Society's 125th Anniversary with a modern spin on a classic map design. The map portrays a contemporary political world accompanied by two insets, showing the world as it appeared in 1888 and 1988 the Society's founding and centennial years. The design features an attractive color palette, clear borders, national capitals and major cities, airports, notable peaks, major rivers and lakes, and stunning ocean topography. This map makes for a beautiful object dart as well as a wonderful conversation piece. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:29,786,000 Sheet Size = 46" x 30.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
