I drove around the country but the map was hard to use. I purchased a local SIM card for my phone, purchased a data plan, and just used Waze. Yes, believe it or not there's data coverage and Waze worked very well. 1 of 1 people found the following review helpful. Made of great, water-proof material - but we found the map ... By Michelle deLeon Made of great, water-proof material - but we found the map to either be outdated or incorrect as often as it was helpful. 1 of 1 people found the following review helpful. Meh By Subaru Kelly The map was meh. Give a general layout of the country-very limited detail on the cities

Very detail map and was printed both sides. One side is Nicaragua 1: 700 000 and other side is El Salvador 1: 250 000. Printed in water proof paper. It include: Border Crossing points, Place of interests, Ferries.... Also have insets of Isla De Ometepe, Leon, San Juan Del Sur, San Salvador.
