National Geographic Maps - Reference : North America Classic [Enlarged and Laminated] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised North America Classic [Enlarged and Laminated] (National Geographic Reference Map):

4 of 4 people found the following review helpful. Beautiful map. Just keep the scale in mind. By Fawn A. Beautiful quality and well packaged, so no damage or wrinkles. However, buyers should realize that, because of the scale of the map, this is not an ideal map for using to "mark" cities visited as a family (which was the purpose I originally bought the map for, not thinking about the facts that the United States is too small for that purpose on this map). Still, because the map is so gorgeous, we gave it to a school teacher friend for her school room wall. 1 of 1 people found the following review helpful. Nice Map, But Not For Me By June Damanti A very nice map, but turned out to not be

detailed enough for my needs...a result of including the whole of North America. I ended up getting a USA map, but if you don't need every little town to show, this is a very nice map. 0 of 0 people found the following review helpful. Four Stars By VJoMcCuGorgeous map with great detail of North American locations!

From the far northern reaches of the Arctic Sea to the Isthmus of Panama, this Classic style political map of North America features trademark National Geographic detail and accuracy. The bright color palette features blue oceans and stunning shaded relief that has been a signature of National Geographic wall maps for over 75 years. Political boundaries are clearly defined, and place names, airports, major roadways, and other geographical features are easy to read. In addition to Canada, the United States, Mexico, and Central America, coverage includes Iceland, Greenland, the island nations of the Caribbean, Venezuela, and most of Colombia. An inset map shows the Aleutian Islands off the coast of Alaska. Enlarged maps provide an immersive experience in any home or office environment. The exceptional cartography is even easier to appreciate at the larger size. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:18,950,000 Sheet Size = 35.75" x 46.25"
