National Geographic Maps - Reference : North America Executive [Laminated] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised North America Executive [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Great as usual! By joshua Great map as always by National Geographic, the details and aesthetic nearly unmatched. I HEAVILY recommend getting this laminated version, the increase of price is definitely worth it, it keeps it safe and is overall much more durable. It may not be that much of a problem if your planning on framing it, but I would still recommend it. Awesome product! 0 of 0 people found the following review helpful. Just OK By Bell Ringer It's ok. The North America part of the map could easily be 20% larger if they moved Greenland to the top, removed Russia and South America. Lots of wasted space means USA is

pretty small. Continental USA is only 6-7" high on this map. 0 of 0 people found the following review helpful. High quality
By Kris
The laminated version is great. It means we do not have to buy a traditional frame with glass. That being said, I wish I had figured out a better way to frame hang this.

The Executive political map of North America is a striking example of the cartographic excellence National Geographic is known for. From the far northern reaches of the Arctic to the crown of South America, the antique color palette, stunning shaded relief, and easy-to-read fonts make this map both beautiful and functional. International boundaries are clearly defined and thousands of place names, waterbodies, mountain ranges, airports, major highways and roads, national parks and more are included. In addition to Canada, the United States, Mexico, and Central America, coverage includes Iceland, Greenland, the island nations of the Caribbean, Venezuela, and Colombia. An inset map provides detail of the Bering Sea and the Aleutian Islands. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:14,009,000 Sheet Size = 23.5" x 30.25"

About the Author
Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
