**National Geographic Maps - Reference : North American Indian Cultures [Tubed] (National Geographic Reference Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised North American Indian Cultures [Tubed] (National Geographic Reference Map):

Long before 16th-century Europeans began to explore North America, the land was already home to an estimated 30 million people who spoke diverse languages and complex cultures. This legacy of language and inspired ideas is explored in this compelling North American Indian Cultures map. The map shows a broad sampling of linguistic families throughout the continent along with descriptions of each language group. A special inset highlights Native Americans innovations from parkas and snow goggles to new medicines and agricultural techniques. Coverage ranges from Central America to the farthest reaches of Canada and Alaska, as well as Greenland and the Caribbean Islands. A perfect complement to National Geographic's Indian Country map. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Sheet Size = 23.25" x 35.75"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
