Guide has great pictures but not enough information. The list of hotels, restaurants and places to go out is very small. The book covers many cities and towns but does not go into details about each one of them

The Northeast Brazil Guide embraces the whole privileged coast of the northeastern region and shows its best in terms of historical monuments, art, music, nature, cuisine, sports and celebrations. The rides and trips are divided into nine itineraries through the states of the region - Bahia, Sergipe, Alagoas, Pernambuco, Paraiba, Rio Grande do Norte, Ceara, Piaui and Maranhao. Specialists and appraisers of the northeastern culture sign texts with their personal impressions. They are: Jarbas Vasconcelos (popular art collector), Jose Eduardo Agualusa (Angolan writer), Josimar Melo (gastronomy critic), Walter Salles (film director) and Xico Sa (journalist and writer), among others. Commented suggestions of lodging and restaurants complete the publication, which also brings useful information such as distances, access tips, bus stations, agencies and recommended guiding services.
