**National Geographic Maps : Northern California (National Geographic Guide Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Northern California (National Geographic Guide Map):

4 of 4 people found the following review helpful. printing a googlemap copy would have been preferableBy xi'anAn absolutely useless map! It is very small, cramped, and most of the space is taken by irrelevant touristy information. A complete waste of money! When I need information I buy a guidebook. When I buy a map, I want something I can read while driving or touring.3 of 3 people found the following review helpful. One StarBy TommyMap too small, not enough detail. Not what I expected. Went to AAA and got the map I wanted.7 of 9 people found the following review helpful. map reviewBy pkoI brought this map before taking a trip to northern California. I have used all kinds of maps since I was a child, and by far this was one of the worst maps going. It is so small that you couldn't read the roads and numbers. This map could have been magnified and enlarged to use the waisted space.Never again.Thanks for letting me vent. Never used this map had to get another.

Waterproof Tear-Resistant Travel MapExplore the many diverse recreational activities and attractions in the northern half of "The Golden State" with National Geographic's Northern California Guide Map. A handy combination of map and guidebook, this map is loaded with information on points of interest, San Francisco, and Yosemite National Park. Cities and towns are clearly indicated and easy to find in the user-friendly index. A complete road network of highways, tollways, and other roads, along with distances noted in miles for major highways, will help you find the route that's right for you. Specialty content to include hundreds of diverse and unique recreational, ecological, cultural, and historical destinations, make this map invaluable to travelers hoping to experience all the attractions the state has to offer.A chart of park service sites and climate information will be particularly helpful to travelers taking in the many outdoor activities in Northern California. Further detail of the region is provided in inset maps of the San Francisco Bay Area, Stockton, Sacramento, Lake Tahoe, and Redwood national and state parks. Whether its marveling at the world's tallest trees, hiking the stunning landscapes of Yosemite, driving the Lost Coast scenic drive along the coast, or exploring the history and culture of the "City by the Bay," this map will prove invaluable in your travels.Every State Guide Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of any kind of travel.Map Scale = 1:1,900,000Sheet Size = 17.75" x 20.75"Folded Size = 4" x 8.75"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
